QUALITY • COMFORT • DURABILITY

# THE EPS DIFFERENCE

## **ENGINEERED FOR PERFORMANCE**

Building packages manufactured by EPS are complete engineered packages. For strength and durability, the entire package is engineered as a whole, not as individual components.

## **UNMATCHED PERFORMANCE AND VALUE**

Other building types cannot match the durability and energy performance of an EPS Building.

## **CUSTOM DESIGNED**

Work with our experts to custom design what fits the needs of your operation.

# CATTLE & DAIRY

## MEET YOUR VENTILATION NEEDS

LVL rafters, Glulam beams, or trusses can be used to ensure that your ventilation needs are met.

## CATTLE & DAIRY

## MONO SLOPE

Mono slope cattle barns by EPS are cattle friendly and can be engineered for shallow or deep pit designs to achieve your goals!

## DAIRY PARLOR

EPS barn designs are flexible, economical, and efficient. We offer USDA accepted interior wall panel and ceiling finishes.

# HOG

## PEACE OF MIND

From finishers to large production sow units, EPS designs reliable structures to fit your specific needs.

## SWINE PRODUCTION FILTERED SITES

### WIDE SPAN

Anything from 100'+ clear span to triple-wide barns, EPS meets the design challenges required to meet IBC code and local snow code criteria.

### FILTERED SITES

Whether your site is filtered or not, with negative or positive pressure ventilation, EPS can design a barn around your filtration needs.

# POULTRY

## PEACE OF MIND

From Layers to Broilers to Egg Processing, regardless of your needs, we have a solution for you!

## EGG PROCESSING & COOLERS

## LAYERS

High-rise, Stack Deck, Conventional, Free Range, and Cage Free structures are available. EPS can provide innovative designs from wood frame to steel structures or somewhere in-between.

## CHICKEN/TURKEY

For Broiler houses using our industry background can provide an economical and fully engineered structure that can fit your budget.

# EQUESTRIAN

## PEACE OF MIND

Build the perfect equestrian facility tailored to your specific needs!

## ARENAS

## DURABILITY

Our advanced Solid Core Panels and Post-Frame construction provide exceptional insulation, life long durability, and economical construction.

## CUSTOMIZED

Your new building will provide convenience, accessibility, security, and comfort, fit for your specific needs.
